Aim

The aim of Regional On-Campus Technical Festival 2017, organized by IET, YPS, Kolkata Local Network is to transfer the information of the ever changing technology with emerging trends, to improve the students in terms of their creativity and synthesize new ideas. This is intended to bring out inner talents of the students which help them to broaden their horizons. This annual technical festival is a unique initiative undertaken to promote and showcase the talents by budding professionals. The brand objective is to provide a competitive platform through technical paper presentation, debate and innovative model competition for a stimulated exchange of knowledge, skills and culture among students of various colleges, and thereby develop them into harmonious and productive individuals.

The IET

The Institution of Engineering and Technology is one of the world's leading professional societies for the engineering and technology community. The IET has more than 150,000 members in 127 countries and offices in Europe, North America and Asia-Pacific. The IET provides a global knowledge network to facilitate the exchange of ideas and promote the positive role of science, engineering and technology in the world. The Kolkata Network is located in the City of Joy, the vibrant metropolis of India. It is the only city in India which had nurtured five Nobel laureates. Being the oldest in India, the Network is proud of its history. Its origin dates back to 1944 when good number of British Engineers had taken initiative to form the then Calcutta Centre of The Institution of Electrical Engineers.

Very recently, IET Student Chapter has started IET on Campus Student Chapter for IET e-branding.
